

## SRI UPDATE ON OCTOBER 2015 EARTHQUAKE March 10, 2016

Dear SRI supporters

I want to give you an update on the funds you so generously donated to the October earthquake which affected people in SRI target villages. Our efforts so far have been:

1. Conducted surveys in the earthquake area, gathered information on damages and coordinated efforts to make sure that only those who were affected by the earthquake were given aid.
2. Distributed aid packages to assist with daily needs of people made homeless by the earthquake.
3. Provided venue for training on building temporary shelters and winterization, as well as helped distribute temporary shelter kits to those whose homes had been destroyed.
4. Constructed homes for people in our target villages so they could move from temporary shelters to their newly constructed homes.

I have attached pictures showing distribution of aid packages and temporary shelters as well as the construction of a home for the family of Husan Pari (a widow) in Shaheen Abad.

Thank you for your tremendous support for the earthquake affected people in Swat.

Best regards,

Zebu
