Ultra Sound and Medicine providing to patient

Patients wait for their turn

Training workshop on Hysteroscopy (Jointly arranged by HDF-SRI & Gynae Unit, Saidu Sharif Teaching Hospital)

HDF-SRI arranged one day training workshop on hysteroscopy with the collaboration of Gynae Unit, Saidu Sharif Teaching Hospital in the Auditorium of Saidu Medical College.

All seniors and Juniors Doctors, TMO's & Surgical Technicians attended the workshop.

Madam Musarrat Bibi (Member National Assembly) was present as a chief Guest in the workshop.

The program starts with the recitation of the Holy Quran.

After this HDF-SRI FUI briefly describe the Organization on going activities specially focused on equipments given by HDF-SRI in April 2011 and still out of functioned equipments i.e Hysteroscope. In the mean time pre-tests were taken to the participant to check their knowledge about hysteroscopy.

After this Dr. Ambreen (Gynecologist Islamabad) gave detail presentation on hysteroscopy to the workshop participant.

In the second session Eng. Usman presented live demonstration about Hysteroscopy related equipments.

Later on all the participant went to Main Operation Theater for practical surgical work and prepares patient case studies.

Then Post-tests were taken to check the understanding level of the participants.

At the end the Chief Guest Musarrat Bibi (MNA) distributed Certificates among the workshop participants.

The Program ended with tea refreshment and lunch arranged by Gynae Unit, Saidu Sharif Teaching Hospital

Achievement: After consecutive 3 years out of functioned HDF-SRI Donated equipment "Hysteroscopy" is now become functional & six patients were benefited on the first day after Installation.
