

CLEAN WATER & ENVIRONMENTAL PROJECTS

GOAL

Install eight hand pumps in each of the nine villages. Goal to protect environment includes the planting of a hundred thousand trees in all nine villages.

PROGRESS TO DATE

22 hand pumps installed so far, benefitting a total of 45,000 people. 50,000 trees so far have been planted.

SRI METHODOLOGY

Land is provided by the village

Well drilling is provided by SRI

Additional labor is provided by the village and paid for by SRI

Materials are provided by SRI including piping and hand pump

Maintenance is provided in rotation by families of the village

REQUIRED TO COMPLETE PROGRAM

30 Hand Pumps, and the installation of 100,000 trees. Cost per tree is \$10.

COST PER HAND PUMP

\$2,000
