

SRI REMOTE SCHOOLS

GOAL

To build schools in extremely remote areas of the Swat Valley, where formal education never existed before.

PROGRESS TO DATE

Five schools have been built, allowing boys to attend school instead of attending cattle, and girls to get an education instead of being forced into early marriages. This program benefits 300 children per school.

SRI METHODOLOGY

Land is provided by the village. Labor is provided by the village and paid for by SRI. Materials are provided by SRI including furniture and blackboards. SRI partners with organizations to fund teachers.

REQUIRED TO COMPLETE PROGRAM

The number of schools built depends on continued donations from our supporters.

COST PER SCHOOL

\$30,000
