

SRI Comprehensive Water Supply

Water Supply for Katair

GOAL

Install a comprehensive water supply system in each of SRI's eight target villages in order to supply disease free, fresh water to the village

PROGRESS TO DATE

A comprehensive water supply has been installed in Katair village benefiting 125 homes, approximately 1,000 residents

SRI METHODOLOGY

- Path for the piping is decided upon by the Village Development Organization (VDO)
- The VDO pays for 35% of labor and material costs to construct the system; SRI pays for the rest

REQUIRED TO COMPLETE PROGRAM

4 Comprehensive Water Supply Systems

COST PER SYSTEM \$2,500 per system
