

SRI Vocational Training Center (VTC) for Men

GOAL

Provide Trade Skills training for men to secure employment in order to support themselves and their families. Getting a vocation also keeps unemployed men from joining extremist organizations:

- Men can find work as carpenters, mechanics, electricians, computer repairmen, heavy machinery operators, etc.

PROGRESS TO DATE

100 men graduate each year at the rate of 50 every six months

SRI METHODOLOGY

- SRI partners with Pak-Swiss Training Centers for the training
- SRI provides funding for the students training costs

At the end of each 6 month training session each student is given a toolkit related to his trade, to enable him to start work and/or his own business immediately

REQUIRED TO COMPLETE PROGRAM

The number of Mens' VTC trainees depends on continued donations from our supporters

COST PER TRAINEE: \$50
